
Index 60mm Adjustable 100mm Wall Wash

PRODUCT DESCRIPTION

A wall washer with restrained proportions and a clean aesthetic. Used to create even illumination from floor to ceiling and across a wall, the effect reinforces length and height of the wall as a whole. Wall washing is ideal for the lighting of artwork, feature walls with materials such as stone, or spaces with high ceilings. The fixture is semi-recessed, with fixing springs holding the mounting plate within the ceiling.

MANUFACTURER Ratio
