

Kove LED Mini Classic 8

PRODUCT DESCRIPTION

Kove LED Mini is a family of miniature luminaires that provide solutions for direct and indirect lighting where there are space constraints, or installations where full-sized luminaires are unsuitable. The Kove LED Mini family features high-CRI LED strip, factory-fitted with micro connectors for easy installation to 24V power supplies – no soldering required. Kove LED Mini products have options of frosted (high performance) and matte (high diffusion) diffusers, stainless steel mounting clips, various body finishes and can be manufactured to almost any length – to suit any installation. Kove LED Mini is an excellent choice for feature lighting, under-cabinet installations, and low-intensity cove lighting.
