
Mini Martin

PRODUCT DESCRIPTION

The Vizulo Mini Martin features a minimalist die-cast aluminium design with powerful optics and illumination capabilities. The Mini Martin reaches brightness up to 17856 lm, and has proved itself among the cloudy landscapes of Iceland, the stormy streets of Israel, and even the official hometown of Santa Claus on the Arctic Circle – Rovaniemi, Finland. It's sturdy and powerful, easy to install, even easier to maintain with an optional enclosure for tool-less opening.
