

Ogle Pendant

PRODUCT DESCRIPTION

The atelje Lyktan Ogle Pendant sees design in a light all of its own. The luminaire has a lampshade in die-cast aluminium in size of a melon and at the bottom of the globe a LED eye keeps watch. An eye that can shift its gaze thanks to a groove on top of the lamp. LED technology Chip On Board (COB) offers high colour rendering and a lumen output up to 1660 lm. The luminaire is equipped with a combination of lens and faceted reflector that both protects the light source and provides light comfort.

MANUFACTURER atelje Lyktan
